

Pip Pip!

Orange Box Design

Life at Orange Box is good. Let's face it, there's lots of worse ways to be earning a living. We could be digging holes in the road or running a funeral parlour*. That's why we always try to come to work with a smile on our faces - and hopefully leave that way too.

Originally formed way back in 1996 as a design partnership, Orange Box Design now employs 7 people and has traded as a limited company since 2001.

Working in the fields of print, new media, event management and exhibitions, and bringing together project management and design skills, the dedicated and professional (of course) team bring a bit of nous as well as fresh ideas to projects for a wide range of clients.

From concept to delivery we try to practice environmentally sensitive creative communication, trying to keep Orange Box green - and that goes for our clients too.

Based in the market town of Wirksworth, Derbyshire the company is well placed to work with clients across the midlands and beyond.

We enjoy close working relationships with our clients and suppliers, keeping them well informed and in the loop from the initial brief through to project completion. That way, we all keep smiling.

*We're not saying there's anything wrong with spades or dead bodies, they're just not our cup of tea
